

PRODUCT REVIEW: HONEYWRAP FOOD WRAPS

Honeywrap Food Wraps

How beautiful are these reusable food wraps from honeywrap!?! And they don't just look good (and smell amazing) they are good: 100% organic cotton made in New Zealand with a blend of beeswax, tree resin and jojoba oil.

A fantastic alternative to the standard cling film/Gladwrap these wraps can be used depending on size for wrapping up foods in lunchboxes or covering bowls. Check out the Honeywrap website at <http://www.honeywrap.co.nz>.
