

Strawberry Bliss Balls.

Looking for a [yummy party food dish](#) or just something to keep on hand for the occasional indulgence? Bliss balls seem to be pretty popular at the moment. And we can see why - it was

really hard to make these without stopping to have a little taste test – or two or three :-).

Here we used strawberries with banana and chocolate to make our super simple strawberry bliss balls but you can make your bliss balls however you like really. All you need to do is ensure you have something sticky to hold the mixture together. We like to keep them in the freezer and they last for ages that way. Otherwise in the fridge for up to a week in an airtight container.

You will love these strawberry bliss balls:

They look stylish – they're:

- Simple
- Super delicious
- Sweet without being too sweet
- Grain Free
- Sticky
- Nutty
- Divine when chilled

Give them a try and if you post any of your creations on social media be sure to hashtag them #domskitchen so we can find you as we love to see you making up scrumptious treats.

If you love this recipe you're sure to love our [Strawberry Bliss Balls](#) so definitely check them out!
